

The Neuroeducation Institute

Applying Brain Science to Teaching & Learning

July 23 - 24, 2009

Montgomery Bell Academy
Nashville, TN

www.theneuroeducationinstitute.com

Presented by:

Carraway Center for Teaching & Learning

Montgomery Bell Academy Center for Teaching Excellence

Overview

The Neuroeducation Institute is a two-day, intensive and collaborative opportunity for educators to come together to learn about the brain, the mind, and the learning process.

The goal of the Neuroeducation Institute is to provide educators with genuine expert knowledge about brain function, memory, and learning in order to better equip educators to appropriately translate cognitive and neuroscience research findings into *usable knowledge* and *practical strategies* for the classroom.

Topics

- Adolescent Brain
- ADHD Interventions: In-Class Interventions
